FITTINGS & ACCESSORIES

Fittings & Accessories

Everything between the straight sections: fittings that change direction and width, covers, splice plates and fasteners, and the brackets, arms and hangers that carry the run. Specify each item with the tray size, material and finish it belongs to.

KEY DATA

Fittings	Bend · tee · cross · reducer
Joints	Splice plates, fasteners
Supports	Arms, brackets, hangers

06 / FITTINGS

MATERIALS & FINISHES

MATERIAL / FINISH	TYPICAL ENVIRONMENT	ISO 9223
Pre-galvanized steel	Dry interiors: offices, data halls, plant rooms.	C1–C2
Hot-dip galvanized (after fabrication)	Outdoor racks, humid process halls, car parks, tunnels.	C3–C4
ZAM · zinc-aluminium-magnesium	Humid interiors and sheltered outdoor runs where pre-galvanized sheet is not enough.	C3–C4
Electrostatic powder coating	Interiors where circuits are colour-coded or appearance matters.	C1–C3
Duplex · HDG + powder coat	Coastal and outdoor runs that also need a colour.	C4–C5
Stainless steel 304	Food, pharma, cleanrooms; general outdoor runs away from chlorides.	Hygienic · C3–C4
Stainless steel 316	Ports, offshore-adjacent plants, refineries, wastewater.	C4–C5 · CX
Aluminium alloy	Weight-sensitive structures and non-magnetic requirements.	C3–C4
